- <https://github.com/arvind040606>

SKILLS

- Artificial Intelligence
- Machine Learning
- Python
- React.js
- FastAPI
- TypeScript
- SQL
- Git & GitHub
- REST APIs
- Tailwind CSS

PORTFOLIO

- Atmosphere AI
atmosphere-ai-intelligent-search.vercel.app
- BunkMate
bunkmate-lilac.vercel.app
- CardioGuard AI
cardioguard20.vercel.app

PROFILE

Computer Science Engineering student passionate about Artificial Intelligence and Full Stack Development. Experienced in building AI-powered web applications using React, Python, FastAPI, TypeScript and SQL. Strong problem-solving skills with hands-on experience developing intelligent, real-world software solutions.

PROJECTS

- Atmosphere AI (2026)
AI-Powered Weather Intelligence Platform
 - Built an intelligent weather platform using React, TypeScript, Tailwind CSS and AI.
 - Integrated real-time weather APIs with AI-generated insights.
 - Designed a responsive and interactive UI.
- BunkMate (2026)
AI Smart Attendance Management System
 - Developed an offline-first attendance tracker with AI timetable parsing.
 - Added assignment reminders, attendance analytics and local data encryption.
 - Built with React, FastAPI and SQLite.
- CardioGuard AI (2026)
AI Healthcare Monitoring System
 - Designed an AI-powered healthcare dashboard for heart health monitoring.
 - Developed secure backend APIs and interactive data visualization.

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science & Engineering
Amritsar Group of Colleges (AGC), Punjab
Expected Graduation: 2028

ACHIEVEMENTS

Built 10+ AI and full-stack software projects.
Deployed multiple production-ready web applications on Vercel.
Experienced in AI-powered application development using modern web technologies.
